12:00 am - 13:00 pm	Press Gathering	

## RED LINES

CVDCS calling upon the international community's conscience to present Assad's regime to the international justice, before other criminal regimes and terrorist organisations are encouraged to kill more innocent people using chemical weapons.

5 years of using chemical weapons, even after Assad's agreement with the international community on what was called «Syria chemical weapons disarmament deal» , Assad's regime keeps violating the international law killing Syrian people with Russian support, protection and their veto.
